

Since its opening in 1986, the **Javits Center** has hosted thousands of trade shows, conferences, and special events including many of the **Top 200 Tradeshows**. The center's 840,000 gross square feet of exhibition space can be divided into ten self-contained halls, enabling us to accommodate trade shows and conventions of any size. While the mix of shows and events change with each calendar year, Javits hosts approximately 80 major trade shows and conventions and 70 special events. Average attendance is 3.5 million a year.

The **Special Events Hall** can seat up to 3,200 for theater-style meetings and receptions, and up to 1,700 for banquets. And, many of our 75 meeting rooms have flexible walls that allow for expansion or reduction to accommodate a client's particular needs.

In the summer of 2010, Javits gained additional space with the construction of a 110,000 square foot pre-engineered structure known as **Javits Center North**. With 80,000 gross square feet of exhibition space, **Javits Center North** is a perfect venue for trade shows, special events, corporate parties, general sessions, graduations and exams.

Javits has also embarked on a renovation project with an expected completion date of 2013. Among the improvements are a new roof; installation of high-energy rooftop mechanical units; replacement of the curtain wall glazing units; repair, replacement and upgrade of the main building's mechanical, electrical, plumbing, lighting and life-safety systems; and re-configuration of the entrance to accommodate double-sliding doors.

A green roof will then be installed that will be the largest green roof in **New York City**. The **Javits Center** will not only be transformed, but the renovation will increase the facility's energy efficiency by 25%, and the building will ultimately achieve **Leed Silver** status.
